EPILEPSY
WORKSHOP

WORKSHOP FEES
₹ 5,000 + GST

CONVENER :
DR. DWARAKANATH SRINIVAS

- **COORDINATOR & FACULTY :**
  Dr Gopal Shah, Dr Nilesh Kurwale
  Dr Nilay Adhvaryu
- **FACULTY :**
  Dr Manjiri Tripathi , Dr Chatrabhuj Rathod
  Dr George Vilanilam, Dr Ramesh Doddamani
  Dr Bhagwati Salgaotar , Dr Rutul Shah, Dr Abhishek Gohel

OBJECTIVES & LEARNING POINTS

- Understand the evaluation of drug-resistant epilepsy.
- Learn seizure localization using clinical, EEG, and imaging data.
- Review indications and techniques for epilepsy surgery.
- Discuss invasive monitoring and advanced diagnostic approaches.
- Explore surgical outcomes and long-term patient management.
- Analyze multidisciplinary decision-making through case-based discussions.

75TH YEAR CELEBRATIONS OF
THE NEUROLOGICAL SOCIETY OF INDIA

NSICON 2026

09th December, 2026 : **Workshop**

10th December, 2026 : **CME**

11th, 12th, 13th December, 2026 : **Main Conference**

Limited Seats Available for Workshop

Register now and secure your spot for Workshop

Venue :
The Forum - Celebration & Convention
Near Club O7, Shela, Ahmedabad - 380058

EPILEPSY

SURGERY WORKSHOP: FROM SEIZURE TO SURGERY

WORKSHOP

CONVENER :
DR. DWARAKANATH SRINIVAS

09th December, 2026

COORDINATOR & FACULTY :

Dr Gopal Shah

Dr Nilesh Kurwale

Dr Nilay Adhvaryu

LOCATION

WORKSHOP VENUE
K D HOSPITAL

WORKSHOP FEES
₹ 5,000 + GST

FACULTIES :

Dr Manjiri Tripathi

Dr Chatrabhuj Rathod

Dr George Vilanilam

Dr Ramesh Doddamani

Dr Bhagwati Salgotra

Dr Rutul Shah

Dr Abhishek Gohel

EPILEPSY

SURGERY WORKSHOP: FROM SEIZURE TO SURGERY

09th December, 2026

SESSION I | 9:00-10:45 AM: BUILDING AN EPILEPSY SURGERY PROGRAM

From the First Patient to a Comprehensive Program

Why Start an Epilepsy Surgery Program?: Understanding the unmet need and identifying appropriate patients.

Building the Team: Epileptologist • Epilepsy Surgeon • EEG/EMU Team • Neuroradiologist • Neuropsychologist • Nuclear Medicine • Rehabilitation

Building an EMU: Video-EEG infrastructure, monitoring protocols, staffing, safety and seizure capture.

Decoding the Seizure: History • Semiology • Video-EEG • Electroclinical correlation.

Imaging for Epilepsy Surgery: Epilepsy-protocol MRI • PET • Functional imaging • Image fusion • Advanced image processing • AI-assisted localization.

Creating an Effective Epilepsy MDT: How to integrate multiple investigations into one coherent surgical hypothesis.

Starting Small, Growing Smart: What is essential on Day 1, what can be added later, and when to collaborate with or refer to a higher-volume centre.

10:45 - 11:00 AM | TEA / COFFEE BREAK

SESSION II | 11:00 AM - 1:00 PM: DECISION-MAKING IN EPILEPSY SURGERY
Cases · Controversies · Surgical Calls · Videos

CASE 1 | 11:00 - 11:20: Epileptologists Case Challenge
10 min: Clinical presentation, semiology, Video-EEG and imaging
10 min: Interactive faculty discussion

CASE 2 | 11:20 - 11:40: When the Data Don't Completely Agree
10 min: Case presentation
10 min: Interactive discussion

SURGICAL VIDEO 1 | 11:40 - 12:00: From Localization to Resection
10 min: Edited operative video
10 min: Surgical strategy and expert discussion

SURGICAL VIDEO 2 | 12:00 - 12:20: Implant, Map & Operate
10 min: SEEG / advanced epilepsy surgery video
10 min: Interactive surgical discussion

THE SURGICAL CALL | 12:20 - 1:00 PM: Interactive rapid-fire decision making with selected cases/images.
Resect · Operate · Disconnect · Implant · Ablate · Neuromodulate · Investigate More

Faculty and participants make the call, and discuss the reasoning behind it.

SESSION III | 1:00 - 1:30 PM | OPEN HOUSE: ASK THE EXPERTS
• An unrestricted interactive discussion.
• Bring your difficult cases, practical problems and questions about:
• No slides. No lectures. Just questions, experience and discussion.

1:30 PM ONWARDS | LUNCH & FACULTY INTERACTION:
Continue the conversation over lunch
